Journey to the First MACH Borzoi
(MACH Whimsy)
by Lou Avant, DVM

CH MACH Hemlock Hollow’s Journey To Rule Sixty-Two
BN RN JC MX MXB MXJ MJB DJ DN CGCA CGCU TKA
Bred by Chris Danker & Lorrie Scott

What a journey this has been!!!! I was incredibly lucky from the beginning. I chose a breeder who had Borzoi experience in the sport of agility and knew exactly the temperament I needed. I wanted a biddable bitch puppy with correct conformation and high food motivation. What I got was a diva on steroids who would sell her soul for a cookie.

Whimsy’s serious agility training began at 20 months. Borzoi training is best when kept to a minimum. I am careful to keep training sessions short and to end on a high note. We often leave hour-long classes and private lessons after just 10 or 15 minutes. This is a breed that requires creative training techniques, few repetitions and high-value food treats such as liverwurst, meatballs and cheese.

Trialing began the same way. The first year, Whimsy and I would trial one day every few months. We increased this very gradually until this year when Whimsy enjoyed trialing four days in a row. I never pushed her or asked for more than she was willing to give and at the very young age of 4½ years old she became the first Borzoi to earn the title of Master Agility Champion. Along the way, she also became a Conformation Champion and earned titles in Dock Diving, Lure Coursing, Obedience, Rally, and Tricks. She is the only Borzoi to date to compete in the Westminster Agility Trial and 2019 will be her third year to compete in the AKC Agility Invitational in Orlando. We also hope to compete next March at the AKC National Agility Championship in Perry. She is my dog of a lifetime ... she is my friend.
BCOA 2019 Rally Rankings
for BCOA member-owned Borzoi, January 1 to June 30, 2019

Corrections to June Mintchell, PO Box 31, N Manchester, IN 46961, rmintchell@yahoo.com

The first person listed as the dog’s owner by AKC must be a BCOA member to be included. To be ranked #1 overall at year’s end, a dog must have at least 3 QS from the regular classes and all QS from the regular classes will be averaged for that dog. To be ranked #1 in any particular class at year’s end only 1 score is needed.

Started in 2016 was the offering of an OVERALL #1 dog in rally. Same rules apply to rally as to obedience. A minimum of 3 scores are needed to be the OVERALL #1 dog. All of the dogs scores from the REGULAR rally are averaged so if a dog competes in more than level all of his scores are rolled into one. Just like obedience, only 1 score is required to be #1 in any given class.

The overall #1 Borzoi in rally with a perfect average score of 100 and 3 scores in advanced is FC Téine Mirage At Riju SC, CD, GO, BN, RA, SHDN owned by J Mintchell

A sincere thank you to everyone who attended—even when the cluster failed to pull majors. It was the first time in the 8 years that I’ve been doing this. So ok. We learned our lesson and will not hold a supported show so close to the National.

I am especially appreciative of our sweeps judges Sandra Moore-Doby and Archie Doby of Avalon Borzoi for traveling so far, at personal expense, and with no dogs to show. This is what commitment looks like. I hope we can talk them into a “redo.”

Special thanks to the Baton Rouge and Northlake Kennel Clubs for their many courtesies. I owe a huge debt to Julie Rhodes Bergen (my co-chair) and Marty Bergen for their cheerful and willing help!

Points are important but I have to say the camaraderie was just the best. It’s really what makes this crazy sport fun. Everyone helped each other, shared equipment, swapped tips, and generously donated all of their prizes towards the Rachel Hunt Memorial fundraiser.

We already have ideas for 2020. More bling. More seafood. More high value treats.; The show will be bigger and better. Join us!

—Veni Harlan, Chair

Delilah is pictured going BOS at the BCOA National Specialty under Borzoi breeder-judge Kalen Dumke.

“ONE OF THE LOVELIEST BITCHES THAT I’VE SEEN!”
National Specialty Breeder Judge Kalen Dumke.

Still a youngster, Delilah’s achievements include:
BCOA National BOS, Multiple Specialty BIS,
#1 NOHS Borzoi, #7 All-Breed and #11 Breed.*

Continuously rewarded by Borzoi, Sighthound and Hound Judges.

Soyara is Celebrating
48 Years of Breeding and Exhibiting
BIS, SBIS, #1 and Group Winning Quality Borzoi.
Delilah moving with reach, drive and balance ...

... She floats around the ring!

MBISS JCh. B Soyara’s Devilish Delilah

Delilah is the culmination of almost 50 years as breeder, owner, handler of ROM, BIS and BISS Borzoi.

LOOK FOR DELILAH IN TEXAS!
This past weekend in Louisiana she went to 4 shows and won 4 BOBs, 2 Hound Group 2nds, 1 Group 3rd and 1 Group 4th!

Delilah is breeder-owner handled or shown by Brian Livingston.
The 2019 AKC Canine Health Foundation
National Parent Club Canine Health Conference

The CHF National Parent Club Canine Health Conference is held every two years and many of the top scientists conducting research of interest to dog owners and breeders.

This year’s Parent Club Canine Health Conference was divided into five topics: Nutrition and Disease, Autoimmunity and disease, Infectious disease and canine cancer, approaches to genetics and breed diversity, and genetics and disease. This summary focuses on Nutrition and Disease.

New Approaches to Diagnosis and Therapy of Intestinal Microbiota Dysbiosis
Jan S. Suchodolski, DrMedVet, PhD, DACVM, AGAF is an Associate Professor and Associate Director of the GI Lab at Texas A&M University

Research into the GI track and the microbiome is helping us understand that the microorganisms (Bacteria, fungi, archaea, protozoa, and viruses) that thrive in the intestines and the organism itself are dependent on each other. What happens to one will impact the other. We have been trained when thinking about disease to look for causative pathogens, but when looking at disease connected to the microbiome what we must look for is the lack of the beneficial balance of gut organisms.

Data is gathering that suggests some diseases are associated with antibiotic use. With the exception of Penicillin, all antibiotics are associated with Irritable Bowel Disease. Exposure to metronidazole or fluoroquinolones (ciprofloxacin, gemifloxacin, levofloxacin, moxifloxacin, norfloxacinc, and ofloxacin) were most strongly associated with new-onset IBD.

One of the interesting take-aways from this presentation was that studies have shown that antibiotics have no effect on acute-uncomplicated diarrhea. In one study, Dogs with uncomplicated diarrhea were either given antibiotics or not. There was no difference between the two groups. However, the antibiotic therapy increased the numbers of antibiotic resistant bacteria (E.coli).

Of course, avoiding all antibiotics is unadvisable. However, it is important to save antibiotics for those times when they are necessary.

To see a list of Dr. Suchodolski’s university web page with a list of his papers: www.cvm.tamu.edu/gilab/staff/dr-jan-suchodolski

Recent research on the CHF Website:

Effects of Probiotics on the GI Microbiome and Immune System of Dogs and Cats
Michael Lappin, DVM, PhD, DACVIM is the Kenneth W Smith Professor in Small Animal Clinical Veterinary Medicine at Colorado State University and director of the “Center for Companion Animal Studies.” He also helps direct the shelter medicine program and the chair of the WSAVA One Health Committee.

In his study of shelter dogs they were able to decrease diarrhea with the use of probiotics. And of interest to many of us - probiotics can also reduce stress diarrhea. Dr. Lappin has conducted several studies using Purina FortiFlora. One study in cats found that FortiFlora could prevent Clavamox induced diarrhea if given before the start of this antibiotic and continued through the antibiotic therapy. While it did prevent diarrhea it did not impact vomiting. Not all probiotics will have the same action. Symbiotic 365 a probiotic produced by United Naturals given 1 hour before Clavamox lessened reluctance to eat, lessened vomiting, but did not have an impact on diarrhea.

Studies also suggest that probiotics can be immune modulators. FortiFlora has been demonstrated to increase immune system health. It enhances the immune system in puppies by producing B Cell responses as well as T Cell responses within 4 weeks. Also use of immune modulated probiotics may improve mite kill when treating mange cases.

When choosing a probiotic be sure that the product contains live organisms. Investigate and be sure the company has proven that the number of live organisms contained is equal to their labeled claims and these numbers are maintained over the labeled shelf life of the product.

Dr. Lappin’s university webpage with a list of his papers: www.csuvt.colostate.edu/DirectorySearch/Search/MemberProfile/vth/904/Lappin/Michael

The Gut-Brain Axis and Those “Gut Feelings”:
Impact of BL999 (Bifidobacterium longum) on Anxious Dogs
Ragen T. S. McGowan PhD is a Research Scientist in Behavior and Welfare at Nestle Purina

When looking at anxiety in dogs several causal factors are at play including genetics and early experiences. However, nutrition can be manipulated to impact the availability of hormone precursors and neurotransmitters. Certain bovine milk derivatives have similar effects on anxiety as Selegiline (a drug used to reduce anxiety) for anxious dogs. Another milk derivative, casinate hydrolysate was found to reduce reactivity, some anxious behavior and cortisol levels. A fish-protein derivative—fish hydrolysate—reduced fearful behavior and blood cortisol levels in response to simulated thunder in thunder phobic dogs.

A webpage with more information: veterinary-practice.com/article/the-role-of-l-tryptophan-alpha-casozepine

An interesting study with two groups of labradors who were fed an balanced diet or a balanced diet plus BL999 (Bifidobacterium longum) showed that those dogs who received the BL999 had lower levels of arousal, lower cortisol levels and lower heart rates than dogs who only received balanced diets.

An article at dvm360 discussing the same topics as Dr. McGowan’s presentation: veterinarymedicine.dvm360.com/boosting-tranquility-through-nutrition

Food for Thought: Updates on Nutritional Considerations and Heart Disease Staging in Dogs
Darcy Aden, DVM, DACVIM; Clinical Associate Professor of Cardiology at the University of Florida, College of Veterinary Medicine.

Scent Work History is made!

by June Mintchell

On July 14 2019 history was made

DC Riju Enjoy The Ride SC, CD, PCD, BN, RA, SWA, SCM, SIM, SEM SHDE, SWD became the first Borzoi, and only the second dog of ANY breed ever, to earn an AKC Detective title. Rider finished just hours after the first dog (a German Wire-Haired Pointer) on the same day at the same location.

What is a detective title? To earn the SWD a dog has to search an area that encompasses both inside and outside and is 2,000 to 5,000 sq feet. Hides can be accessible and inaccessible, in the ground, or above ground, and at any height a judge wants to put them. There are 5 to 10 hides. The exact number is unknown to the handler. A team has to find all of the hides in the time allotted by the judge (7 to 15 min) with no false alerts. It takes 10 QS to earn the title.

Rider found hides inside closed drawers, closets and containers, in or under all kinds of items, and even buried in the ground. He also had a couple of vehicle searches. He has searched all kinds of buildings including a get-away lovers resort, rental cabins, a hotel, a church, schools, a horse arena, horse stalls, parking lots, and a city municipal building. His highest hide was 6 – 8 ft high inside a horse stall. He has had a few hides up in trees and under the bark of trees right about the height a dog would lift his leg. We have had to search outside in the hotel doggy potty area and in a maintenance building that was home to a feral cat that reeked of cat urine. BTW, a dog can’t pee during a search or it’s all over. At one location we had to deal with carpenter bees. The first day it wasn’t too bad and we survived even though I am terrified of bees. Rider was the only dog that day who qualified. The next day Rider crossed the start line by leaping up and snapping at a bee. That set the pace. Because we got swarmed before it was over and I called it quits before he nailed down a hide and found the last one. No dog Q’d that day. However we have successfully searched in weather from 20 below zero to 100 degrees, rain, thunder, and even in 60 mph winds.

Just like in obedience, I am self taught. Rider was the dog I started my experiment with. From the time I started experimenting with him to the day he earned the highest title available in this sport it took almost exactly 2 yrs.

The high point for me (besides the day we finished the title) was the very first day we showed in detective class. There were 2 trials in one day. There were 16 dogs entered in each trial. The pass rate was 25 percent that day. Only 2 dogs Q’d in both trials. Guess which Borzoi was one of them?
CONGRATULATIONS to Lou Avant and Collen Allen on Whimsy’s MASTER AGILITY CHAMPIONSHIP!!! WHIMSY is the first Borzoi to attain this title. 20 double Qs in Standard and Jumpers on the same day; along with 750 points needed for this title. Points are accrued by the number points under time. A huge accomplishment for any breed!!!!!

This presentation was highly technical. However, Dr. Aden provided a website that does a much better job that I would at summarizing the most pertinent information for dog owners.

The following sites are on the Tufts University Heart Smart website:

Important nutrients for pets with heart disease: [https://vetmed.tufts.edu/heartsmart/diet/important-nutrients-for-pets-with-heart-disease/](https://vetmed.tufts.edu/heartsmart/diet/important-nutrients-for-pets-with-heart-disease/)

Nutrients that should be restricted for pets with heart disease. This page also provides links to pages with lists of dog foods and treats that are low in sodium as well as tips for giving medications (on the treat page): [https://vetmed.tufts.edu/heartsmart/diet/restricted-nutrients-for-pets-with-heart-disease/](https://vetmed.tufts.edu/heartsmart/diet/restricted-nutrients-for-pets-with-heart-disease/)

The Tufts Heart Smart website has additional information on heart disease in pets.

Another part of the presentation discussed responsiveness to diuretics (specifically furosemide [Lasix]) in dogs with congestive heart failure. What they have found is that levels of furosemide in the blood did not correlate with the drug dose. There are several factors that can impede the effectiveness of furosemide: poor absorption due to gut edema, taking food with the furosemide dose (reduces absorption by 30%), unpredictable bioavailability (from 10%-80% absorption of the dose). Solutions - do not give food at the same time as giving a dose of furosemide. Also, try using torsemide (Demadex) instead of furosemide (Lasix) as it has better bioavailability and better blood levels.

Recent research on the CHF Website:
02661: Investigation into Diet-Associated Dilated Cardiomyopathy in Dogs (status is open). [www.akcchf.org/research/research-portfolio/2661.html](http://www.akcchf.org/research/research-portfolio/2661.html)

Dr. Aden’s university webpage with a list of more research papers: [https://www.vetmed.ufl.edu/about-the-college/faculty-directory/darcy-adin/](https://www.vetmed.ufl.edu/about-the-college/faculty-directory/darcy-adin/)

An Update on Cannabidiol Research in Dogs
Stephanie McGrath professor at the Neurology Department at Colorado State University’s College of Veterinary Medicine

Epilepsy is the most common neurological condition in dogs. To add to the heartbreak of this complex disease, 20-30% of dogs on standard anti-epileptic drugs are not controlled. Further, dogs are sometimes euthanized because the side effects of the medications can impact quality of life.

Cannabinoids have gained public awareness as an effective medication for various human ailments. This opens the question of how cannabis-based therapies might work for dogs. But first research had to be conducted to establish how cannabidiol (CBD) is tolerated by dogs.

It is important to make the distinction between THC and CBD. THC is psychoactive and comes from Marijuana and CBD is not psychoactive and comes from the Hemp plant. Research into how well healthy dogs were able to tolerate CBD showed that dogs do tolerate the product well. In the initial study there were some side effects seen. A liver enzyme (alkaline phosphatase or ALP) increased in 11 dogs (36%) that received higher doses of CBD orally but only at the 4-6 week mark. Bile acids remained normal. There was also transient diarrhea, however, this was not seen in the epilepsy study.

These initial studies showed that the CBD oil produces the best results. CBD is metabolized by the liver

Currently the efficacy of CBD oil on intractable epilepsy in dogs is being conducted. It is a double blind study, so the researchers have no idea of the results and will not know anything about the results until the end of the study.

For pet owners who are interested in using CBD oil with their dogs, they must understand that veterinarians cannot prescribe this drug. Purchasing CBD oil is complicated because of a lack of regulation. Sixty-nine percent of CBD products are mislabeled. Forty-three percent had more and 26% had less CBD than the labeled claim. Do not purchase CBD oil unless there is a certificate of analysis conducted by a third party and performed for each batch produced. It must be high CBD and low THC.

Another interesting piece of information from Dr. McGrath, she recommended that when using probiotics for autoimmune disease—be careful. If you start a probiotic and the autoimmune disease gets worse, stop the probiotic immediately because probiotics have been shown to enhance immune disease.

A link to Dr McGrath’s university website: [http://www.csuvth.colostate.edu/DirectorySearch/Search/MemberProfile/vth/1701/McGrath/Stephanie](http://www.csuvth.colostate.edu/DirectorySearch/Search/MemberProfile/vth/1701/McGrath/Stephanie)

Recent research on the CHF Website:
The AKC Board of Directors approved four ways to improve the time it takes to complete obedience trials to reduce the extended days for clubs, judges and exhibitors. The obedience Brace class eligibility has also been changed. This information is also available on the Obedience News & Updates page.

**EFFECTIVE SEPTEMBER 4, 2019**

**Must be compliant no later than JANUARY 1, 2020**

Items 1-4 are effective for all trials held on or after 9/4/19. However, if clubs are using software that requires programming changes to meet these requirements, all clubs have an extension to complete the necessary changes. All clubs must be compliant with changes #1-4, for all obedience trials held on or after JANUARY 1, 2020.

**1. Judging Programs/Scheduling Judges – Obedience Regulations, Chapter 1, Sections 3 & 26** – The Regular and Preferred Open classes and the Regular and Preferred Utility classes require the same ring set-up. Clubs currently have the option to schedule dogs by their jump height in ascending or descending order. The Regulation change will require dogs to be scheduled by jump height in either ascending or descending order and will require the Regular Open and Preferred Open classes to be combined for judging. It will also require the Regular Utility and Preferred Utility classes to be combined for judging. This will establish one set-up for Open and one set-up for Utility, reducing the time it takes to judge the classes and to keep the trial moving along smoothly.

There is a new “Awards Placement Sheet” on the AKC Downloadable Forms page on the website to attach as the last page in the Judges’ Book that will replace the placement boxes on the bottom of the forms. This placement sheet is to be used with all current stock of Judges’ Books until those forms are gone. Follow the directions on the form. Once your current stock of Judges’ Books are gone, please use the newest template available on the AKC website which can be found under the downloadable forms page.

**2. Judge’s Ring Assignments – Obedience Regulations, Chapter 1, Section 26** – the judging program establishes the classes that will be run in a ring throughout the day. Sometimes when a judge arrives at their scheduled ring the classes in the ring from an earlier assignment may be running behind schedule causing the judge to wait to begin their assignment. However, there may be other rings available that meet the same ring requirements, where the class could move to in order to begin the judging on time. The Regulation change will allow the judge’s assignment to be moved to another ring, if one is available and it meets the original ring’s requirements.

**3. Combining Walkthroughs – Obedience Regulations, Chapter 1, Section 26** – The Regulations require a walkthrough for several classes at the beginning of the class. However, some classes have the same set-up structure and by having the walkthrough at the beginning of each class can be redundant and add time to the day. Combining the walkthroughs for the classes that have the same structure will provide a savings of time throughout the day. The Regulation change will require walkthroughs to be combined if the same judge is judging classes with the same set-up structure when there are less than 20 combined dogs entered; and the same start time will be published for both classes.

**4. Load Balancing Entries – Obedience Regulations, Chapter 1, Section 28** – At closing often times the entries for judges on the panel are unbalanced with one judge having more dogs than another. Requests have often been made to balance the load of entries amongst the judges on the panel, or to reduce the number of judges, to have the trial run more efficiently and to facilitate a smooth-running trial. The Regulation change will allow clubs to load balance the entries after closing with 1) the approval of the judge, outlining any fees that may be required, and 2) the approval of AKC prior to publishing the judging program.

**EFFECTIVE SEPTEMBER 4, 2019**

For all trials held on or after 9/4/19

Obedience Brace Class Eligibility – Obedience Regulations, Chapter 20, Section 5 - The requirement to have two dogs of the same breed for the Obedience Brace class has been removed. The Regulation change will allow two dogs of any breed, including dogs listed with AKC Canine Partners, that are of similar height at the withers to be entered in the Brace class.

Please click here for the detailed Obedience Regulations language. Should you have any questions, please e-mail obedience@akc.org and we will be happy to assist you.

Pamela Manton
Director of Obedience, Rally & Tracking
**Aristocrat Mission Statement**

*The Aristocrat* is the official publication of the Borzoi Club of America and is published quarterly in order to inform, educate and entertain the members by providing historical and current information on the Breed and issues affecting the well-being of our Borzoi.

**Statement of Intent:**

It is the intent that the Aristocrat:

- Serve as a record of BCOA and its activities
- To provide a convenient forum for the reporting of statistics on the accomplishments of the members in conformation and performance events.

**Policies**

- Deadlines for submission of material for the Aristocrat are February 15, May 15, August 15 and November 15. A separate Specialty issue may be offered so that the results can be published as soon as possible after the National.
- Deadlines established by the Aristocrat Committee will be strictly adhered to.
- The right to reasonably edit all material or refuse to print material thought to be questionable or not in the best interest of the breed or Club is reserved by the Aristocrat Committee and the Editor.
- Only signed letters or articles will be accepted for use.
- Only Borzoi-related artwork will be utilized for the cover of the Aristocrat. If artwork is not available for a particular issue then the Club Logo shall be utilized for the cover.
- The following material will be published in the Aristocrat issue immediately following the National Specialty:
  - Photos of the recipients of the Annual Awards in:
    - Conformation
    - Best Opposite Sex in Conformation
    - Obedience
    - Rally
    - Agility
    - Open Field Coursing
    - Lure Coursing
    - LGRA
    - Breeder of Top Conformation Borzoi
    - Top Junior Showman
  - Photos of the Specialty Conformation and Performance Winners
  - Judge’s critique of Conformation classes
  - Catalog pages and performance results
  - Candid photos as available

**Guidelines**

- Articles submitted by BCOA Committee Chairs will be included as available
- Any claims or statements by writers in the Aristocrat represent their own opinions and are not necessarily those of the Aristocrat Committee or the Officers and Directors of the Borzoi Club of America.
- All content is subject to the final approval of the Aristocrat Committee.
- Results and photos from BCOA Trophy Supported entries will be included as provided by the TSE Show Chairman.
